PROFILE SUMMARY

Front-End Developer skilled in building scalable, responsive web applications using React.js, Next.js, Redux, JavaScript, and modern CSS frameworks like Tailwind CSS. Proficient in creating reusable components, handling API integrations, and optimizing performance. Familiar with SQL and core Java. Passionate about clean code, UI/UX, and continuous learning.

PROJECT

React-Quiz-Application: Developed a responsive web application using React.js and plain JavaScript, featuring React-based questions to demonstrate core concepts such as reusable components, event handling, and React hooks. It showcased modern web development practices and interactivity through clean design and dynamic functionality. GitHub: [React-Quiz Project](#).

Portfolio: I built a responsive personal portfolio using Next.js, Tailwind CSS, and TypeScript to showcase my projects and skills, featuring fast performance, a clean UI, and a mobile-first design. ([Raviprasath Portfolio](#).)
